

SHIFTING THE LIMITS

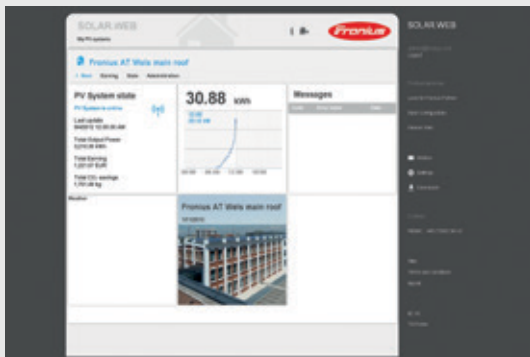

FRONIUS SOLAR.WEB

/ The all-in-one internet portal for configuring, monitoring, analysing and visualising photovoltaic systems

REGISTER FOR FREE
at www.solarweb.com

/ PV systems can be monitored, analysed and compared quickly and easily using the free online portal Fronius Solar.web. Up-to-date system data can be accessed at any time and is clearly presented: the portal is very user-friendly and easy to use, and a comprehensive range of analysis functions is included. Fronius Solar.web also features a variety of tools and functionalities, such as the Fronius Solar.configurator, the Fronius Solar.web app for monitoring & visualising while on the go, and Fronius Solar.TV for public displays.

ANALYSE, MONITOR AND VISUALISE

- / Clear presentation and evaluation of the latest and archived data
- / Automatic yield comparisons across multiple inverters or time periods
- / Comparison of PV system data against sensor data (target/actual comparison)
- / Automatic module fault detection
- / Automatic message output and regular reports
- / Easy management of multiple systems
- / Solar.community to share and compare systems

FRONIUS SOLAR.WEB TOOLS AT A GLANCE

- / Online system configuration using the Fronius Solar.configurator. The software supports the precise dimensioning of PV systems.
- / Mobile visualisation using the Fronius Solar.web app. The mobile version of the online service ensures you never lose sight of the energy yields from your PV system.
- / Present your data in public with Fronius Solar.TV. The Public Display function enables a range of PV system values - such as system yield - to be clearly presented.

SIMPLE VISUALISATION

..... Communication path
—— Power path

/ Fronius Solar.web requires the Datamanager function to be installed in the inverter (integrated as standard in the Fronius Galvo and Fronius Symo, available as plug-in card for all other inverters). Alternatively, a Fronius Datalogger Web may be used for inverters without plug-in card slots. Retroactive installation of a Fronius Datamanager or Fronius Datalogger Web can be carried out at any time.

SYSTEM REQUIREMENTS

Up-to-date internet browser that supports HTML 5 (e.g Microsoft Internet Explorer 9, Google Chrome 18 or Mozilla Firefox 11)

/ Battery Charging Systems / Welding Technology / Solar Electronics

WE HAVE THREE DIVISIONS AND ONE PASSION: SHIFTING THE LIMITS.

/ Whether Battery Charging Systems, Welding Technology or Solar Electronics - our goal is clearly defined: to be the technology and quality leader. With around 3,000 employees worldwide, we shift the limits of what's possible - our more than 850 active patents are testimony to this. While others progress step by step, we innovate in leaps and bounds. Further information about all Fronius products and our global sales partners and representatives can be found at www.fronius.com
