

LET VISITORS SEE YOUR SOLAR WITH A CUSTOM DISPLAY

A Solar Analytics Custom Display shows live data of your solar production and energy consumption in your entry lobby or shop floor.

“The Custom Display in the Council’s library shows, at a glance, that we’ve invested in renewable energy and that it’s cutting our emissions and costs.”

Daniel Stronggrove, Cairns Regional Council

CUSTOM DISPLAYS SHOW:

- Live data drawn from your existing Solar Analytics monitoring
- Daily solar production and energy consumption, and 'equivalent' metrics e.g. The number of cars off the road
- Local weather and date
- Your logo and branding

A FLEET DISPLAY FOR MULTIPLE SITES

In addition to all the features of the standard Custom Display, a Fleet Display shows combined data from a group of sites monitored by Solar Analytics.

WANT TO SHOW MORE INFORMATION?

Our eye-catching Multi Page Displays have up to 20 rotating pages and are suitable for showing data from a number of sites, with customised images, text and your promotions.
